

Buckeye RC Flyers

SPECIAL FIELD RULES

Due to the nature of your flying field the following rules are imperative and violations are subject to immediate expulsion.

1. Gate is to be locked when no one is at the field. Last person at the field will be held responsible for the unlocked gate.
2. Giving out the lock combination to any non-member
3. Flying over the field to the west or north of the landing strip when any manned vehicles or personnel are present.
4. No deliberate flying east of the landing strip if any cars or people are present.
5. You may invite guests, but no guest more than three times per calendar year.
6. Due to the use of gasoline and Ether, smoking is not allowed in the pit area or on the flight line.
7. From time to time the club will schedule work days. All members are required to participate in a majority of these work days each year. If a member fails to meet this requirement, that member is subject to expulsion or fine. This may be further defined and posted by the officers as needed..
8. All 72MZH transmitters are subject to impound, all must display freq. Tags.
9. It is the responsibility of all pilots to know what freq. & channel everyone else is using. (You and/or your personal insurance (not AMA insurance) will be liable for any damage you cause by interference.
10. No air plane louder than 100db at 10ft.
11. No one may fly except beginners under the direct supervision of an instructor without paid club dues and current AMA membership.
12. Attention must be paid to the medical helicopter to the south of the field. When it starts up all planes are to land immediate and stay on the ground until it has cleared the area.
